Meeting with Rosprirodnadzor

14th December 2006

Peter Hambro Mining welcomes the clarification achieved at the meeting between company executives and Rosprirodnasor officials, including Mr Oleg Mitvol, in Moscow.

The agency's position is clearly set out in its press release and the company welcomes this. A translation is attached but the company takes no responsibility for the accuracy of the translation.

In the meeting Mr Mitvol clearly refuted media speculation that his inspection formed part of an attack on western investment.

Translation of Rosprirodnasor statement

"On 14 December 2006 Rosprirodnadzor senior officials had a meeting with Peter Hambro Mining managers

Negotiations were attended by Deputy head of Rosprirodnadzor Oleg Mitvol, head of department of control over use of mineral resources Yaroslav Vassilyev, Peter Hambro Mining Chairman Peter Hambro, his deputy Pavel Maslovsky.

In response to Peter Hambro's statement concerning publications in Western media on an alleged political pressure on foreign companies in Russia and an intention to withdraw their assets, Mitvol replied that this couldn't be further from the truth. According to him, these were political speculations. "Rosprirodnadzor's inspections are in no way related to politics, inspectors do their work, exercise government control over use of mineral resources", he stressed. "Once again, I am urging foreign investors to comply with regulations of environmental protection and rational use of mineral resources, then there won't be any problems with controlling bodies."

Maslovsky in his turn noted that in the near future the company would take all remedial efforts to take care of the violations found in fields developed by Yamalzoloto. Representatives of Peter Hambro Mining expressed willingness to voluntarily hand over the license to another entity if the company fails to timely meet all the terms of the license to develop Novogodnee-Monto field.

Rosprirodnadzor is currently doing a comprehensive inspection of compliance with terms of licenses issued to Peter Hambro Mining for exploration and development of gold, titanium and magnesium ore, chrome and other metals. Peter Hambro Mining will complete inspection of compliance with license terms before end of December 2006.

According to preliminary data, no material violations of laws or license terms have been discovered, according to Ministry of Natural Resources press service. In particular, in the course of inspections of Peter Hambro Mining subsidiaries in Amur region, geological prospecting company Victoria and Porkovsky Rundik, Rosprirodnadzor inspectors have not recorded any facts of laws violation.
